## STANDARDS/RECOMMENDATIONS/DIRECTIVES

**SCIP-Database**                      **Substances of Concern In articles as such or in complex objects (Products)**

## CONFIRMATION

Applicable to product groups: **AKROLEN®**, **AKROMID®**, **AKROLOY®**, **PRECITE®**, **AKROTEK®**

Companies supplying articles containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1 % weight by weight (w/w) on the EU market have to submit information on these articles to ECHA, since 5 January 2021.

AKRO-PLASTIC GmbH is not supplying any articles to the market and therefore not obliged to provide information via the SCIP Database.

Independent from the requirements of the SCIP Database AKRO-PLASTIC GmbH fulfils its obligations under REACH. One of these obligations is the communication on substances of very high concern (SVHCs). However, for products we supply to our customers this communication is managed via safety data sheets or individual confirmations. Since the Candidate List is updated regularly (typically twice a year), AKRO-PLASTIC GmbH regularly verifies if any products are affected. In case you received a product, which contains a substance of very high concern (SVHC) in a concentration above 0.1 % (w/w) you would automatically be notified by us.

This document was created electronically and is valid without signature.

Kind regards  
**AKRO-PLASTIC GmbH**
